Minibus guidance for children

Minibus rules

- Stay seated when the minibus is moving and keep your seatbelt on at all times.
- Wait until the minibus has stopped and the driver or chaperone has told you to undo your seatbelt before getting up to leave; the driver may still need to reverse or park.
- It's dangerous to kneel or turn around on your seat.
- Only speak to the driver when he or she is not driving, or in an emergency. Speak to the chaperone rather than the driver.
- If you need the toilet or feel unwell during the journey, tell the chaperone.
- Don't throw things or play about in the minibus.
- Take your belongings with you when you leave, except in an emergency.
- Tell the chaperone if you have forgotten something and you need to return to the minibus. This can be dangerous because the driver may be pulling away.
- Only chaperones and drivers are allowed to open and close the doors.
- Ask the chaperone whether it is ok to open a window.
